

Group Scrabble

This game allows you to have fun together while also improving communication among sisters. You will need index cards with the letters of the alphabet written on them and a hat (or other suitable container).

1. Write the letters of the alphabet on index cards. Consider including a few extra vowels and removing letters X, Q and Z.
2. Ask each sister to choose one index card from the container.
3. Once everyone has a card, sisters should arrange themselves into complete words given the cards they hold. They can create several small words or a few big words, but every letter needs to be included.
4. Once sisters are in their word groups, have them discuss the last book they read or talk about their hobbies or share their latest item of interest or ...
5. Afterward, discuss the communication process used when spelling the words. Was it effective? What did they learn about the way the chapter communicates?
6. If you have time, put the index cards back in the container and repeat the activity.
